PREFATORY NOTE

The *ART INDEX* is an index to domestic and foreign publications. Although it is primarily a periodical index, yearbooks and museum bulletins are included. The main body of the Index consists of subject and author entries to published articles as well as entries for reproductions of works of art, all arranged in one alphabet. In addition there is a listing of citations to book reviews following the main body of the Index.

Subject areas indexed include archaeology, architecture, art history, city planning, crafts, motion pictures, graphic arts, industrial design, interior design, landscape architecture, museology, photography, and related fields.

The Committee on Wilson Indexes of the American Library Association's Reference and User Services Association advises the publisher on indexing and editorial policy by means of in-depth contents studies conducted at intervals of several years. The committee as part of its study prepares a list of periodicals, representative of all subject areas included in the Index, for consideration by the subscribers.

Selection of periodicals for indexing from this list is accomplished by subscriber vote. In voting their preferences subscribers are asked to place primary emphasis on the reference value of the periodicals under consideration. They are also asked to give particular consideration to subject balance in order to insure that no important field be overlooked in proportion to overall Index coverage.

While the responsibility for all indexing and editorial decisions rests with The H.W. Wilson Company, every effort is made by the company to follow the recommendations of the committee and the subscribers to a given periodical Index.

Suggestions for addition or deletion of titles should be brought to the attention of The H.W. Wilson Company, 950 University Avenue, Bronx, N.Y. 10452

EXPLANATORY NOTES

ARRANGEMENT

Art Index is an author and subject index with all entries arranged in one alphabet. No title entries are made. Subject headings beginning with numerals appear before those beginning with the letter A. Subdivisions of a subject heading are grouped in the following order: (1) Historical period subdivisions, arranged chronologically; (2) Form and topical subdivisions, arranged alphabetically; (3) Geographic subdivisions, arranged alphabetically. Under author and subject headings, titles are arranged in alphabetical order by first word, initial articles being disregarded. Under personal names, titles by a person precede those about the person.

HEADINGS

This Index uses specific headings and subheadings. Articles about individual artists and reproductions of their work are indexed under their names. If a surname which includes an article or preposition is not found under the prefix, it should also be searched for under the part of the name following the prefix. Names beginning with variations of Master, such as Maestro, Maitre, Meister, are entered under Master, e.g. Master of Cologne. An article about a museum or architectural firm is indexed under its name.

REFERENCES

See references guide the user from terms not used as headings to those under which entries are to be found. They are always made to inverted headings from the uninverted form, e.g. Chinese enamels *See* Enamels, Chinese. *See also* references guide the user from terms used as headings to related headings. *See also* references have been made to specific corporate names used as headings from an appropriate generic heading such as Architectural firms and groups; Design firms and groups; Textile industry—United States.

ARTICLE TITLES

In some cases the indexer has supplied the title or added text to clarify the meaning of the title. Square brackets are used to indicate these editorial interpolations.

ILLUSTRATIONS

Illustrations of works of art (up to ten) that accompany an article are listed by title in a note following the artist entry. If an artist's illustrations exceed ten, or are untitled, they are not itemized.

BOOK REVIEWS

Citations to book reviews are listed in a separate alphabet following the main body of the Index. Book reviews which appear as part of a review article are also indexed under subject headings.

MOTION PICTURE REVIEWS

Motion pictures are indexed under the title of the film and the name of the director. Entries may also be made for actors, as appropriate.

THEATER REVIEWS

Plays are indexed under the dramatist's name. Entries may also be made under an actor's names or the name of the theater company, as appropriate.

VIDEO RECORDING REVIEWS

Reviews of movies, plays, etc., are indexed according to the rules for the type of work recorded on video, subdivided by "Video recording reviews." Reviews of educational videos are indexed under the topic of the video recording, subdivided by "Audiovisual materials—Reviews."
